Dear Marco,

As the President of the San Francisco Board of Supervisors, I was honored to have been the Supervisor whose district demonstrated an unprecedented show of support for the formation of the Fisherman's Wharf Community Benefit District.

As you know, this effort was the culmination of your and my work on getting this new enabling ordinance through the Board of Supervisors over the past two years, as well as finding the right place in which to test the potential success of this new district.

On July 26<sup>th</sup>, the property owners of Fisherman's Wharf voted by an 8 to 1 margin to support the formation of this new district. Such widespread support demonstrates the willingness of the property owners of Fisherman's Wharf to take this historic district to the next level, as well as the ability of your company to complete this difficult and tedious assessment district formation process.

I am very happy that my district was the home to the first CBD in the City and am confident that the business and property owners of Fisherman's Wharf will take full advantage of the new revenues coming in to improve and enhance the district.

It has been a pleasure working with you and your staff in this great effort. Please feel free to use me as a reference for similar work throughout the country.

Sincerely,
