**Conclusion**

Applicants should carefully consider the nature of the maintenance requirements of the DDIA's. This RFP is not designated for traditional maintenance or janitorial companies. The awarded vendor must demonstrate the ability to provide staff that can perform, even thrive, in the DDIA environment. This area of maintenance and placemaking is in a constant state of evolution. "Outside-the-box" thinking is a critical component of the management process for this DDIA. Vendors and/or sub-contractors should expect that the contract will be challenging and will involve a very "hands-on" customer service dimension.

***The DDIA Board reserves the right to accept, amend, reject or completely alter the use of a private contractor in this RFP process. The DDIA may also determine that it is most cost effective to provide such services with in-house DDIA employees. The responses to this RFP will determine that course.***
